# About the class test

## Key details

- ▶ The test takes place at 10:00, Tuesday 6 October.
- ▶ **Teams 1, 2, 3 and 4** should go to **ENG-G017**.  
Everyone else (**Teams 5–12** should go **ENG-G018**.  
Students with LENS/Accommodation arrangements will be informed where to go by email (see message with subject “Venue for MA140 Class Test” to be sent by Friday.
- ▶ The test has a multiple choice format, same as MP120.
- ▶ There is a sample paper on : Modules ... Week 5. A version showing the answers has also been posted there.
- ▶ You are allowed bring a basic (non-programmable) calculator. No other device or material may be used during the test, except where permitted as a reasonable accommodation (e.g., noise-cancelling headphones).
- ▶ “Log tables” will **not** be used.

## In the room

- ▶ Arrive at least 5 minutes early – by 09.55.
- ▶ You will **not** be allowed to do the test if you arrive late: it causes too much disruption to others.
- ▶ When taking a seat, always move as far towards the centre of the row as possible.
- ▶ The test is scheduled to last **40** minutes. If you finish early, stay in your seat to avoid disruption to your class-mates.

**Leaving:** You can leave the room when the 40 minutes are up. When you do, **please**, **please!**, **please!!** do so without talking: there may be others in the venue entitled to an extra 10 minutes and, entitled to work without major disruption.

# What to bring (or not)

1. Bring a black pen (of HB pencil).
2. Bring some spare **blank** paper for your rough work. You can have a basic, non-programmable calculator.
3. Leave any notes, tables, calculators, phones, tablets, laptops, sonic screwdrivers and homing pigeons, etc, in your bag. **Don't use them during the test.**
4. If you forget to bring a calculator: you should be fine. And **don't use a phone.**

# Layout and Topics

1. Any topic up to, and including, the section on Differentiation Rules, with the exception of the Chain Rule, may appear on the test.
2. There will be **9** multiple choice questions. **Each question has exactly one correct answer.**
3. You get 1 mark for each correct answer, and zero for an answer that is wrong/not attempted. Negative marking is not used.
4. Review the sample test.
5. Make sure you know how to enter your ID number.
